Climate Action Revenue Incentive (CARIP) Public Report for 2017

Local Government:

Report Submitted by: Name: Talitha Soldera Role: Director of Finance Email: Talitha@duncan.ca Phone: 250-746-6126

Date: May 2018

The City of Duncan has completed the 2017 Climate Action Revenue Incentive Program (CARIP) Public Report as required by the Province of BC. The CARIP report summarizes actions taken in 2017 and proposed for 2018 to reduce corporate and community-wide energy consumption and greenhouse gas emissions (GHG) and reports on progress towards achieving carbon neutrality.

2017 BROAD PLANNING ACTIONS

Broad Planning Actions

Broad Planning refers to high level planning that sets the stage for GHG emissions reductions, including plans such as Official Community Plans, Integrated Community Sustainability Plans, Climate Action Plans or Community Energy Emissions Plans. Land use planning that focuses on Smart Growth principles (compact, complete, connected, centred) plays an especially important role in energy and GHG reduction.

Coi	Community-Wide Actions Taken in 2017	
	Reviewed new Zoning bylaw including public consultation	
Co	mmunity-Wide Actions Proposed for 2018	
	Adopt new Zoning Bylaw	
	Begin development of Cairnsmore Neighbourhood Plan	

Cor	Corporate Actions Taken in 2017		
	Continued to work with other jurisdictions and partners on regional initiatives, such as the Regional Airshed Protection Strategy Implementation and the Cowichan Watershed Board.		
Cor	rporate Actions Proposed for 2018		
	Continue updating and reviewing the Official Community Plan		
	Continue to implement the University Village Sustainable Local Area Plan.		

Broad Planning		
What is (are) your current GHG reduction target(s)?	The City of Duncan is striving to be a carbon neutral community by 2040.	

Are you familian	with your community's community energy and emissions inventory (e.g. CEEI ntory)?	Yes
What plans, pol	icies or guidelines govern the implementation of climate mitigation in your	
community?		
•	Community Energy and Emissions (CEE) Plan	Yes
•	Community- Wide Climate Action Plan	No
•	Integrated Community Sustainability Plan	Yes
•	Official Community Plan (OCP)	Yes
•	Regional Growth Strategy (RGS)	No
•	Do not have a plan	No
•	Other:	No
Does your local	government have a corporate GHG reduction plan?	No

2017 BUILDING AND LIGHTING ACTIONS

Building and Lighting Actions

Low-carbon buildings use the minimum amount of energy needed to provide comfort and safety for their inhabitants and tap into renewable energy sources for heating, cooling and power. These buildings can save money, especially when calculated over the long term. This category also includes reductions realized from energy efficient street lights and lights in parks or other public spaces.

Coı	mmunity-Wide Actions Taken in 2017		
	Continued to implement the Community Sustainability Checklist, offering incentives for developers		
	who meet green building requirements.		
Coi	Community-Wide Actions Proposed for 2018		

Cor	rporate Actions Taken in 2017

Coi	Corporate Actions Proposed for 2018		
	Implement lighting upgrade in City Hall.		
	Increase green building requirements to reduce environmental impact of developments.		

Building and Lighting		
The Province has committed to taking incremental steps to increase energy-efficiency requirements in		
the BC Building Code to make buildings net-zero energy ready by 2032. The BC Ene	rgy Step Codea part	
of the BC Building Codesupports that effort		
Is your local government aware of the BC Energy Step Cost?	Yes	
Is your local government implementing the BC Energy Step Code?	Yes	

2017 ENERGY GENERATION ACTIONS

Energy Generation Actions

A transition to renewable or low-emission energy sources for heating, cooling and power supports large, long-term GHG emissions reductions. Renewable energy including waste heat recovery (e.g. from biogas and biomass), geo-exchange, micro hydroelectric, solar thermal and solar photovoltaic, heat pumps, tidal, wave, and wind energy can be implemented at different scales, e.g. in individual homes, or integrated across neighbourhoods through district energy or co-generation systems.

CUIDUIALE	ALLIUIIS I a	VEII III TOTI

Coi	rporate Actions Proposed for 2018

Energy Generation		
Is your local gov	vernment developing, or constructing:	
•	A district energy system	No
•	A renewable energy system	No
Is your local gov	vernment operating:	
•	A district energy system	No
•	A renewable energy system	No
Is your local gov energy provider	vernment connected to a district energy system that is operated by another ??	No
Are you aware of the Integrated Resource Recovery guidance page on the <u>BC Climate Action</u> <u>Toolkit</u> ?		No
Are you familiar with the 2017 "List of Funding Opportunities for Clean Energy Projects Led by First Nations and Local Governments?"		No

2017 GREENSPACE/NATURAL RESOURCE PROTECTION ACTIONS

Greenspace Actions

Greenspace/Natural Resource Protection refers to the creation of parks and greenways, boulevards, community forests, urban agriculture, riparian areas, gardens, recreation/school sites, and other green spaces, such as remediated brownfield/contaminated sites as well as the protection of wetlands, waterways and other naturally occurring features.

Community-Wide Actions Taken in 2017	
	Established a Park DCC
	Established guidelines for the creation of urban food gardens included in the new zoning bylaw.

Community-Wide Actions Proposed for 2018	
Corporate Actions Taken in 2017	
Corporate Actions Taken in 2017	
Corporate Actions Proposed for 2018	
Continue to compost City organic waste internally for use as fertilizer and mulch	
Continue implementation of the urban forest strategy and tree protection bylaw.	
Greenspace	
Does your local government have urban forest policies, plans or programs?	Yes
Does your local government have policies, plans or programs to support local food	No
production?	
2017 SOLID WASTE ACTIONS	
Solid Waste Actions	
	minimizac
Reducing, reusing, recycling, recovering and managing the disposal of the residual solid waste	
environmental impacts and supports sustainable environmental management, greenhouse gas	i
reductions, and improved air and water quality.	
Community-Wide Actions Taken in 2017	
Community-Wide Actions Proposed for 2018	

Cor	porate Actions Taken in 2017

	d Waste	
	es your local government have construction and demolition waste reduction policies, plans	No
	programs?	
Doe	es your local government have organics reduction/diversion policies, plans or programs?	Yes
2	017 TRANSPORTATION ACTIONS	
Tra	ansportation Actions	
Trai	rsportation actions that increase transportation system efficiency, emphasize the movemen	nt of
	ple and goods, and give priority to more efficient modes, e.g. walking, cycling, ridesharing, a	
•	olic transit, can contribute to reductions in greenhouse gas emissions and more livable comm	
Con	nmunity -Wide Actions Taken in 2017	
Con	nmunity-Wide Actions Proposed for 2018	

Cor	rporate Actions Taken in 2017		
	Work with Cowichan Bio-Diesel Coop to fuel garbage truck.		
Corporate Actions Proposed for 2018			
	Continue to implement the trans Canada highway corridor management plan.		
	Work with neighbors to create a Master Transportation Plan		

Transportation		
Does your loca	al government have policies, plans or programs to support:	
•	Walking	Yes
•	Cycling	Yes
•	Transit Use	Yes
•	Electric Vehicle Use	Yes
•	Other (please specify)	No
•	al government have a transportation demand management (TDM) strategy (e.g.	No
to reduce sing	le-vehicle occupancy trips, increase travel options, provide incentives to	
encourage ind	ividuals to modify travel behavior)?	
Does your loca	al government integrate its transportation and land use planning?	Yes

2017 WATER AND WASTEWATER ACTIONS

Managing and reducing water consumption and wastewater is an important aspect of developing a sustainable built environment that supports healthy communities, protects ecological integrity, and reduces greenhouse gas emissions.

C	Community-Wide Actions Taken in 2017	
	Offered free water and energy saving kits to City residents.	
	Continued to implement the residential water metering program.	

Community-Wide Actions Proposed for 2018		
Complete 90% of the residential water metering program.		

Cor	Corporate Actions Taken in 2017		
	Continued to work with regional partners on water management.		
Cor	Corporate Actions Proposed for 2018		
	Conduct camera assessment of sewer pipes		
	Perform storm water quality analysis		

Water Conservation	
Does your local government have water conservation policies, plans or programs?	Yes

2017 CLIMATE CHANGE ADAPTATION ACTIONS

This section of the CARIP survey is designed to collect information related to the types of climate impacts local governments are experiencing and how they are being addressed.

Please identify the THREE climate impacts that are most relevant to your Local Government.

- Warmer winter temperatures reducing snowpack
- Changes to temperature and precipitation causing seasonal drought
- Heatwaves impacting population health
- Increased temperatures increasing wildfire activity
- Increased temperatures affecting air quality
- Changing temperatures influencing species migration and ecosystem shifts
- Extreme weather events contributing to urban and overland flooding
- Sea level rise and storms causing coastal flooding and/or erosion

In 2017 has your local government addressed the impacts of a changing climate using any of the		
following?		
Risk and Vulnerability Assessments	Yes/No	
Risk Reduction Strategies	Yes/No	
Emergency response planning	Yes/No	
Asset management	Yes/No	
Natural/Eco asset management strategies	Yes/No	
Infrastructure upgrades (e.g. storm water system upgrades)	Yes/No	
Beach Nourishment projects	Yes/No	
Economic diversification initiatives	Yes/No	
Strategic and financial planning	Yes/No	
Cross-department working groups	Yes/No	
OCP policy changes	Yes/No	
Changes to zoning and other bylaws and regulations	Yes/No	
Incentives for property owner (e.g. reducing storm water run-off)	Yes/No	
Public education and awareness	Yes/No	
Research	Yes/No	
Mapping	Yes/No	
Partnerships	Yes/No	
Other:

Are you familiar with the Community Lifecycle Infrastructure Costing Tool (CLIC)?	Yes
Have you used CLIC?	No

INNOVATION AND PEER-TO-PEER LEARNING

Innovation

This section provides the opportunity to showcase an innovative Corporate and/or Community-Wide GHG reduction and/or climate change adaptation activity that your local government has undertaken and that has had, or has the potential to have, a significant impact. You are welcome to repeat an action that has already been listed.

Projects included here may be featured as success stories on the B.C. Climate Action Toolkit and/or shared with other local governments to inspire further climate action. Please add links to additional information where possible.

Communities that have conducted innovative initiatives may want to consider raising their profile through applications to <u>CEA's Climate and Energy Action Awards</u>, <u>UBCM Climate and Energy Action Awards</u>, <u>FCM Sustainable Communities Awards</u> or through submissions to <u>FCM's National Measures Report</u>.

Programs and Funding

2017 CARBON NEUTRAL REPORTING

Local governments are required to report on their progress in achieving their carbon neutral goal under the Climate Action Charter. Working with B.C. local governments, the joint Provincial-UBCM Green Communities Committee (GCC) has established a common approach to determining carbon neutrality for the purposes of the Climate Action Charter, including a Carbon Neutral Framework and supporting guidance for local governments on how to become carbon neutral.

Prior to completing this portion of the survey, please ensure that you are familiar with guidance available on the B.C. Climate Action Toolkit website, especially the <u>Becoming Carbon Neutral: A Guide for Local Governments in British Columbia.</u>

Please note: As a result of the BC Recycling Regulation, local governments are no longer required to account for greenhouse gas (GHG) emissions from vehicles, equipment and machinery required for the collection, transportation and diversion of packaging and printed paper, in their annual Climate Action Revenue Incentive Program (CARIP) reports.

Reporting Emissions

Did you measure your local government's corporate GHG emissions in 2017?	Yes
If your local government measured 2017 corporate GHG emissions, please report	142.91
the number of corporate GHG emissions (in tonnes of carbon dioxide equivalent)	
from services delivered directly by your local government:	
If your local government measured 2017 corporate GHG emissions, please report	127.7
the number of corporate GHG emissions (in tonnes of carbon dioxide equivalent)	
from <u>contracted</u> services:	
TOTAL A: CORPORATE GHG EMISSIONS FOR 2017	270.61 tCO2e

Reporting Reductions and Offsets

To be carbon neutral, a local government must balance their TOTAL corporate GHG emissions generated in 2017 by one or a combination of the following actions:

- undertake GCC-supported Option 1 Project(s)
- undertake GCC-supported Option 2 Project(s)
- purchase carbon offsets from a credible offset provider

If applicable, please report the 2017 GHG emissions reductions (in tonnes of carbon dioxide equivalent (tCO2e)) being claimed from Option 1 GHG Reduction Projects:

OPTION 1 PROJECTS	REDUCTIONS
Energy Efficient Retrofits	
Solar Thermal	
Household Organic Waste Composting	88.6
Low Emission Vehicles	
Avoided Forest Conversion	
TOTAL B: REDUCTIONS FROM OPTION 1 PROJECTS FOR 2017	88.6 tCO2e

If applicable, please report the names and 2017 GHG emissions reductions (in tonnes of carbon dioxide equivalent (tCO2e)) being claimed from Option 2 GHG Reduction Projects:

OPTION 2 PROJECT NAME	REDUCTIONS
TOTAL C: REDUCTIONS FROM OPTION 2 PROJECTS FOR 2017	tCO2e

If applicable, please report the name of the offset provider, type of project and number of offsets purchased (in tonnes of carbon dioxide equivalent (tCO2e)) from an offset provider for the 2017 reporting year:

(NOTE: DO NOT INCLUDE ANY FUNDS THAT MAY BE SET ASIDE IN A CLIMATE ACTION RESERVE FUND)

OFFSET PROVIDER NAME	OFFSETS
Community Carbon Marketplace	183

TOTAL D: OFFSETS PURCHASED FOR 2017	183 tCO2e

TOTAL REDUCTIONS AND OFFSETS FOR 2017 (Total B+C+D) = 271 tCO2e

Corporate GHG Emissions Balance for 2017

Your local government's Corporate GHG Emissions Balance is the difference between total corporate GHG emissions (direct + contracted emissions) and the GHG emissions reduced through GCC Option 1 and Option 2 projects and/or the purchase of offsets.

CORPORATE GHG EMISSIONS BALANCE FOR 2017 = (A - (B+C+D)) = zero tCO2e

If your Corporate GHG Emissions Balance is negative or zero, your local government is carbon neutral. CONGRATULATIONS!

If applicable, please record any emissions reductions you will be carrying over for future years and the source of the emissions reductions, including the year they were earned (E.g., Organics diversion, 2016 100 tCO2e).

SOURCE OF CARRY OVER EMISSION REDUCTIONS (and year earned)	REDUCTIONS
BALANCE OF REDUCTIONS ELIGIBLE FOR CARRY OVER TO NEXT YEAR	tCO2e

Carbon Neutral Reporting	
Does your local government have a climate reserve fund or something similar?	Yes/No

GCC CLIMATE ACTION RECOGNITION PROGRAM

Green Communities Committee (GCC) Climate Action Recognition Program

The joint Provincial-UBCM Green Communities Committee (GCC) is pleased to be continuing the Climate Action Recognition Program again this year. This multi-level program provides the GCC with an opportunity to review and publicly recognize the progress and achievements of each Climate Action Charter (Charter) signatory.

Recognition is provided on an annual basis to local governments who demonstrate progress on their Charter commitments, according to the following:

Level 1 – Demonstrating Progress on Charter Commitments: for local governments who demonstrate progress on fulfilling one or more of their Charter commitments

Level 2 – Measuring GHG Emissions: for local governments that achieve level 1, and who have measured their Corporate GHG Emissions for the reporting year and demonstrate that they are familiar with their community's energy and emissions inventory (i.e. CEEI)

Level 3 – Accelerating Progress on Charter Commitments: for those local governments who have achieved level 1 and 2 and have demonstrated undertaking significant action (corporately or community wide) to reduce GHG emissions in the reporting year (i.e. through undertaking a GHG reduction project, purchasing offsets, establishing a reserve fund).

Level 4 - Achievement of Carbon Neutrality: for local governments who achieve carbon neutrality in the reporting year.

For purposes of Level 3 recognition, if applicable, please identify any new or ongoing corporate or community wide GHG reduction projects (other than an Option 1 or Option 2 project) undertaken by your local government that reflects a significant investment of time or financial resources and is intended to result in significant GHG reductions:

PROJECT NAME:	

Based on your local government's 2017 CARIP Climate Action/Carbon Neutral Progress Survey, please check the GCC Climate Action Recognition Program level that best applies:

Level 1 – Demonstrating Progress on Charter Commitments	
Level 2 – Measuring GHG Emissions	
Level 3 – Accelerating Progress on Charter Commitments	
Level 4 - Achievement of Carbon Neutrality	х
